HUSQVARNA SOFF-CUT X150

The Husqvarna Soff-Cut X150 saw is designed for residential and light commercial applications. The lightest petrol saw in the Soff-Cut range, the X150 is designed for ease of use and convenience. Features include a patented low noise blade enclosure which allows the unit to be used in residential areas with minimal disruption. In addition, the low-dust blade block system allows the saw to cut dry, and it controls the debris for easy cleanup.

SOFF-CUT® TECHNOLOGY

Husqvarna Soff-Cut® is a unique patented system for early entry concrete sawing. This technology enables concrete to be cut within the first one or two hours of finishing and before final set. Husqvarna Soff-Cut® provides the best solution for minimising the risk of random cracking, and it simplifies the working process, compared to conventional sawing.
