

# HAND-HELD CONCRETE VIBRATORS - PVE38/PVE45

A handheld portable vibrator is an essential tool for most concretors. Using these portable concrete vibrators is ideal for consolidating newly placed concrete around job sites such as slabs, footings, beams, and car parking lots.

HOPPT® SiteVibe portable concrete vibrators are available in 38 and 45mm sizes, with the smaller size being suited to concrete blockwork and EPS forms. The Hoppt SiteVibe comes complete with shoulder harness and padded hip protector. Being powered by a genuine Honda GX35 for reliability and serviceability these units are suitable for the small concreter to the large civil contractor.

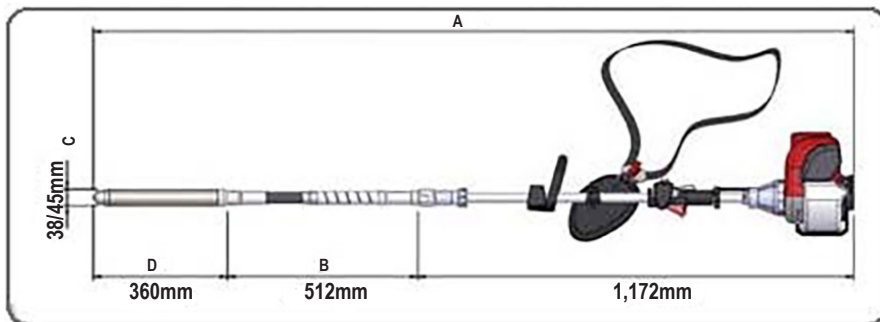

These concrete vibrators are amongst the best in hand-held gasoline powered vibrators. Their light weight allows the operator to transport them with ease around the work site. The SiteVibe is powerful and provides excellent consolidation of concrete.

### Features and Benefits:

- Genuine Honda GX35
- Shoulder harness & Padded Hip Protector
- High vibrating power
- Long working life
- Wear resistance and reliability
- Easy operations
- Easy maintenance

HOPPT® Hand-Held Portable Concrete Vibrator with Padded Shoulder-Harness
